About Us

Who Are We?

- SystemizeMe & Associates provides Administrative services with Emphasis on Organizational Structure
- We provide many services that enable companies to run at max efficiency without worrying about the smaller details behind the scenes that oil the machine.

Consulting

- We first come in and observe how you conduct business.
- We learn what you do, how you do it and why you do it, the way you do it.
- Once we have a good understanding of this, we can better determine what processes are effective, which are repetitive, and which are absolutely not necessary.
- Sometimes the verdict will be that you're running at max efficiency, and sometimes we will need to implement changes.

Consulting (cont'd)

- If there are changes recommended, we will advise all things related to said change.
- We will recommend necessary software, procedures, and assist with implementation of any alteration of process and training.
- This includes the physical layout of the space involved if necessary.

Length of Service

- The great thing about our services is that you can request them at your leisure.
- There is a 4 hour minimum per service request, but that's it!
- You can request one-time service, short term service (ex: 1 project that lasts 3 weeks), and you can request service indefinitely! We can even provide staffing or recruiting services to ensure you get the right fit for your roles.
- Our Associates will offer their recommendation based on their expertise, however the ultimate decision is yours!
